

Manikaf Geological Gardens
Singapore March 15th 1878

Sir,

I have the honor to report as follows on
Gardens operations for Feb. 1878.

Some plants have been planted out in
the Economic Garden, and batches of *Nea*

Peccaria & *Peccaria* planted but and
a good many plants have been removed to the
back of the hill and planted there for the
purpose of supplying cut flowers.

Unfortunately soon after planting dry weather
set in from which they have suffered severely,
and further planting operations were stopped.

The beds on the upper terrace have been
all cleared preparatory to being newly
laid out and planted.

Some of the roads require some
slight repairs to prevent them from getting
up and with the view of the Committee
sanctioning the ~~expenditure~~ expenditure

can get materials carried to the gardens
conveniently. At $\frac{1}{100}$ per cubic yard.

Some rare ferns have been taken from
the rocks and plants from other parts of the
Gardens since the last meeting of the Committee.

Contributions of plants and seeds have
been received from the Botanical Gardens of Ceylon
Brahm and Mauritius and from Capt. R. S.
Hutton & Mr. S. P. S. S. S. S.

A. Four Eggs Perak. 6. Peche Eggs. 12. 1/2
and 1364 plants and about 1200 sets of
flowers have been distributed

In the Zoological Dept. 2 Kangaroos
and 1 Pheasant have died and 3 Parrots
located

I have the honor to be
Sir

Your Most obedt servt

H. J. Munro

To
The Chairman
of the Land and Survey Commission
